Life So Far

- INDIX → Jun 2013 - Feb 2017

Designer & Developer *(3 years 8 months)*

Over this 4 years, I have worked on and owned up to different kinds of (B2B, B2C, Internal) web applications including mobile. On different projects my responsibility was to, interact with product managers to understand the requirements; ideate on ways to solve the user needs; come with basic wireframes and facilitate an open review process; visual design screens with attention to detail; build quick prototypes; come up with a sustainable front end architecture; plan, split and estimate the work with the team; have the infra setup; choose the right frameworks and build the product (dev); have optimal test coverage; CI-CD for faster iterations; testing in a staging env for quick feedback; coordinate communication between multiple teams; ensure and ship it before the D-Day; setup alerting systems; write up documentation; track user activity; do A/B testing; provide support for marketing & sales; automate most of the workflows and so on.

- INDIX → Dec 2012 - Apr 2013

Intern - UI Developer *(4 months)*

Life So Far (Contd.)

- THOUGHTWORKS → Sep 2011 - Mar 2012
Intern - Android Developer (*7 months*)
- SSNCE, ANNA UNIVERSITY → Mar 2009 - May 2013
Bachelor in Computer Science (*4 years*)
- ERODE, INDIA → Apr 1992
Being cute newborn

About Me

A passionate Designer with a craze towards Art and an impulse towards Programming.
An Empathetic Extroverted Erratic-perfectionist.

- I love to **Explore** by travelling, trekking, running and always learning.
- I love to **Express** by writing, art and endless open conversations.
- I love to **Solve** things by simple Design and Automation (programming).
- I love to **Play** soccer and PC games (Dota) a lot.

Other Interests

Hackathons - organizing and attending,
Gaming - primarily Dota 2,
Sketching, Sculpting, css art,
Blogging, Guitar, Stand up comedy,
Motor Biking, Trekking, Running,
Esoteric programming languages, etc.
